PHD STUDENT IN COMPUTER SCIENCE

---

## EDUCATION

- University Of California Berkeley**, California, USA  
*Doctor of Philosophy in Computer Science*  
*Advisor: Prof. Jitendra Malik*  
*Aug. '19 - Present*
- Stanford University**, California, USA [**Dropped Out**]  
*Masters in Computer Science with Distinction in Research*  
*Sept. '18 - Jun. '19*
- Indian Institute of Technology**, Kanpur, India  
*Major in Electrical Engineering with Minor in Machine Learning*  
**GPA: 9.5/10** (Seven Semesters)  
*Aug. '14 - Jun. '18*
- Ecole Polytechnique Fédérale de Lausanne**, Lausanne, Switzerland  
*Semester Exchange in Computer Science*  
**GPA: 5.8/6.0** (One Semester)  
*Sept. '17 - Feb. '18*
- D.A.V. Public School**, Muzaffarpur, India  
*All India Senior School Certificate Examination*  
**GPA: 10/10**  
*April 2012*
- 

## RESEARCH INTERESTS

Human Motion Prediction, Object Centric Video Understanding, Computer Vision

## PUBLICATIONS

- Karttikeya Mangalam**, Ehsan Adeli, Kuan-Hui Lee, Adrien Gaidon, Juan Carlos Niebles “Disentangling Human Dynamics for Pedestrian Locomotion Forecasting with Noisy Supervision”, *IEEE Winter Conference on Applications of Computer Vision (WACV'20)* [**Oral**]
- Takuma Yagi, **Karttikeya Mangalam**, Ryo Yonetani, Yoichi Sato “First-Person Human Trajectory Prediction”, *Computer Vision and Pattern Recognition 2018 (CVPR'18)* [**Spotlight Paper**]
- Karttikeya Mangalam**, Tanaya Guha “Using Spontaneity of Speech to Improve Emotion Recognition”, *International Speech Communication Association - Interspeech 2018* [**Oral**]
- Karttikeya Mangalam**, Vinay Prabhu “Do deep neural networks learn shallow learnable examples first?”, Workshop on Identifying and Understanding Deep Learning Phenomena, *International Conference on Machine Learning 2019 (ICML'19)*, [**Spotlight Paper**], Baylearn 2019.

- Zhe Cao, Hang Gao, **Karttikeya Mangalam**, Qi-Zhi Cai, Minh Vo, Jitendra Malik “3D Human Locomotion Prediction with indoor environments constraints” (submitted to ECCV 2020)
- Karttikeya Mangalam**, Harshayu Girase, Shreyas Agrawal, Kuan Hui Lee, Ehsan Adeli, Jitendra Malik, Adrien Gaidon “It Is Not the Journey but the Destination: Endpoint Conditioned Trajectory Prediction”, ArXiv: 2004.02025 (submitted to ECCV 2020)

## AWARDS & ACHIEVEMENTS

**All India Rank 1** in National Science Talent Search Examination-2011 out of 500,000 students

Selected as an **Indian National Mathematical Olympiad Awardee**, awarded to only 30 students nationwide annually *'for demonstrating extraordinary talent in pre-college mathematics'*

Received **Summer Undergraduate Research Grant** for Excellence 2016 by IIT Kanpur

Received **Academic Excellence Award**, for 3 consecutive years (2015-17) at IIT Kanpur

**1st State Rank** in Regional Mathematics Olympiad-2013 out of 10,000 students

**1st State Rank** in 5th SOF International Mathematics Olympiad 2012

**1st State Rank** in both First & Second Round of NTSE-2010 out of 30,000 students

**1st State Rank** in National Level Science Talent Search Examination -2011

**Top 1% Nationwide** out of 37,000 enrolled in National Standard Examination in Physics

**Top 1% Nationwide** in National Standard Examination in Junior Science 2010

**Top 1% Nationwide** out of more than a million students in AISSCE 2014

**99.97** percentile in Joint Entrance Examination (IIT-JEE) 2014 among 1.5 million students

Recipient of **Honda Young Engineer & Scientist's (Y-E-S) Fellowship** 2017, awarded to 14 undergraduates nationally *for appreciating their excellent undergraduate research work*

Received a grant of **\$10,000** through the YES+ program for summer research internship

**Selected as a National Talent Search awardee** in 2010 bestowed by MHRD to **500 among over 300,000** students nationwide *to identify students with high intellect and academic talent*

Awarded UnifyID fellowship in Spring'19 to promote young researchers in Machine Learning.

---

## PATENTS & COPYRIGHTS

System and Method For Endpoint Conditioned Trajectory Prediction, **Karttikeya Mangalam** et al. *U.S. Pat. # 62/991, 207* Filed March 18, 2020 with Toyota Research Institute, CA

System and Method For Predicting The Movement of Pedestrians, **Karttikeya Mangalam** et al. *U.S. Pat. # 16/787, 523* Filed February 11, 2020 with Toyota Research Institute, CA

Goal Conditioned Scene Aware Social Trajectory Prediction, **Karttikeya Mangalam** et al. *IP-A-4194*, Filed December 3, 2019, with Stanford Vision Lab & Toyota Research Institute, CA

---

## RESEARCH PROJECTS

ALL RESEARCH PAPERS  
ARE UPLOADED  
ON THE HOMEPAGE &  
ARXIV

### Social Goal Conditioned Trajectory Prediction

*Research Internship, Dr. Adrien Gaidon, Toyota Research Institute*

*May '19 - Mar.'20*

- Developed novel multi-modal trajectory prediction architectures in bird's eye view settings
- Studied effects of goal-conditioning & social pooling on trajectory prediction performance
- Achieved best results on popular prediction benchmarks like Stanford Drone & ETH/UCY datasets

### Human Locomotion Forecasting

*Research Assitanship, Prof. Juan Carlos, Stanford Vision Lab*

*Sept. '18 - May'19*

- Formulated the problem of *human locomotion forecasting* in presence of noisy inputs
- Developed a novel method based on motion disentanglement for reducing prediction complexity
- Proposed a end to end pose estimation, completion, disentanglement and prediction pipeline for locomotion prediction without using any human annotated data

### Do Deep Neural networks learn shallow trainable examples first?

*UnifyID fellowship*

*Spring 2019*

- Studied characteristics of generalization of deep networks relative to simple machine learning models
- Formulated the experimental procedure to investigate learning trajectory [Video Link](#)

### First-Person Human Trajectory Prediction

*Research Internship, Prof. Yoichi Sato, CV Lab, University of Tokyo* *May '17 - Nov. '17*

- Devised a Multi-stream encoder-decoder architecture for future pedestrian position prediction
- Investigated several state of the art models for Pose Estimation, Segmentation, Depth Estimation, Social Interaction Modeling and Path prediction techniques centered around Human Affective CV
- Collaborated to *record and benchmark a new dataset* for locomotion research in first person vision

### Machine Rationalization : A Conditioned Language Generation Task

*Summer Research Internship, Prof. Alain Tapp, MILA, Montreal* *June '18 - Aug. '18*

- Curated a dataset of over 1B tokens from Reddit for unsupervised conditional rationalization
- Proposed the new Natural Language Generation task of Rationalization: Generating reasonable explanations for a given occurrence in an unsupervised context-free setting
- Proposed a new GAN architecture that improves upon the currently available baselines

### Learning Spontaneity to Improve Emotion Recognition in Speech

*Prof. Tanaya Guha, Multimedia & Signal Processing Lab, IIT Kanpur* *Jan. '17 - Mar. '18*

- Proposed two different *Multi Task Learning based SVM frameworks* (Hierarchical and Joint) for emotion recognition in speech utilizing the spontaneity information outperforming competing methods.
- Identified several novel features for the task of spontaneity (planned or improvised) detection such as context and delta values through feature ablation experiments on the USC IEMOCAP database

### Distillation of Fully Convolutional Networks with Residual Connections

*Semester Research Project, Dr. Mathieu Salzmann, CV Lab, EPFL* *Oct. '17 - Feb. '18*

- Implemented the **U-net architecture** with 2D and 3D convolutional layers in Pytorch
- Tested and compared a number of different models, varying the channel layer depth, softmax temperature, kernel size, architecture depth and optimization parameters
- Proposed novel distillation method compressing to a model with using just **3% of the capacity**.

### Binary Image Recombination after Bitwise Operations Of Cellular Automaton

*Summer Research Internship, Prof. K S Venkatesh, CV Lab, IIT Kanpur* *May '16 - May '17*

- Designed a novel algorithm to extend the use of Cellular Automaton of Image Processing tasks
- Improved upon the performance of *Median filtering algorithm* on denoising Salt & Pepper noise by 5-7 % with minimal space-time overheads using the proposed algorithm

---

## VOLUNTARY WORK

### Reviewer

*Professional Service*

- 22nd Conference on Medical Image Computing and Computer Assisted Intervention (MICCAI 2019)
- IEEE Winter Conference on Applications of Computer Vision (WACV 2020)
- International Journal on Multimedia Tools and Applications, Springer (MTAP)
- International Conference on Medical Imaging with Deep Learning (MIDL 2020)

### Core Team Operations

*Counselling Service, IIT Kanpur*

*Jan. '16 - Jan. '17*

- In a team of 10, organized a 6-day long Orientation Program on behalf of IIT Kanpur to welcome the batch of 2016 and ensure a smooth transition to college life
- Led a team of 137 students guides, to carry out the admission procedures for the new batch such as academic registration, course allotment and biometric affiliation
- Organized institute-level remedial sessions aimed at providing help to the academically weak students
